

## Activities of Rural Development

The college has a subject named Rural Development. The main theme of the subject is to develop agricultural manners and bonding with agriculture. Now days the new generation seems not to be interested in the agriculture sector. Mostly students migrate towards cities in search of jobs in industries. They do not prefer work with agriculture. This is a noteworthy issue with the country. Keeping these things in mind, the Rural Development department of the college has initiated the new activities “Development of Parasbag – Backyard Garden” In this activity the students of the college motivated and trained in the agriculture activities. To fulfillment of this aim, the department organizes various programs in the college. A number of students developed their agro-ability through this program. At last the competition organizes for students. The successful students are awarded with certificates.
