

## 2.2.1 - Proofs for Advanced & Slow learners

# Special Efforts for Slow and Advanced Learners

(2023-24)

Class : FYBCom

Mentor : Prof. Lankesh M. Gajbhiye

- After completion of admission process lists of slow and advanced learners are prepared on the basis of performance of students in the previous examinations and also on the basis of teachers' assessment of individual students.
- After admission work, and after commencement of regular lectures, due and extra attention is paid to the students on the basis of their learning abilities.
- Extra lectures are arranged by the teachers to cater to the needs of slow as well as advanced learners. Extra lecture hours are used especially as interactive lecture hours.
- Special attention is paid to the needs of advanced learners during regular and extra lectures and also during interactive sessions. Available audio-visual media are used for this purpose.
- Considering imperfections in English of the students, the College organised workshops and Certificate course in English language. It is an initiative designed to address the need of students to acquire communicative competence- help to develop slow and advanced learners. In other words, these efforts of the College provided the students language skill, eliminate fear about English and boost confidence among the students.
- For the Accountancy subjects of the commerce students, special practical sessions are organised for the benefit of the students.
- Below mentioned strategies are employed for improving the performance of the slow learners:
  - Repetition of a topic and its revision up till the slow learners are satisfied.
  - Encouraging students to participate in classroom interactions.
  - Personal guidance (keeping in mind the individual learning levels) and periodical class tests.
  - Delivering a resume of the lecture at the end of each and every lecture.
  - Using the available teaching and other aids.
  - Holding practical demonstration, conducting industrial tours, field trips and field studies.
  - Simple and easily understandable notes are prepared and distributed among the students so as to cater to the needs of both categories of students.
  - The college library has arranged the books department-wise and subject-wise so as to enable the students access the books and avail them to cater to their needs.
  - In the classroom, advanced learners are given the task of delivering the lectures. This measure, it is believed, will benefit not only advanced learners but also slow learners.

- The College has also designed various activities for the advanced learners such as solution of University question papers in the classroom, additional assignments, tutorials, question bank etc.
- A number of students, slow and advanced, are issued library privilege cards allowing them additional access to library resources.
- The College practices presentations of the students in classroom to eliminate their fear to speak which enabled them to acquire more knowledge by them.
- The students are also given an opportunity to publish in annual publications- Kalpataru and Parijat (Wall paper)
- Advanced learners are given opportunities to lead in N. S. S. camping.
- Advanced students are motivated for the study of competitive examinations.

### Appreciation Letter

To,

Prof. Lankesh M. Gajbhiye,

Dept. of Economics and Foundation Course.

Dear colleague, you have done work very well regarding hard work for slow and advanced learners' students. At the beginning you had submitted the list of slow and advanced learners of FYBCom class for 2023-24 as a mentor with planning of tools to be used for the progression of them though out the academic year. You went through the attempts and give progressive report me at the end of academic year. The work done by you is appreciable and I appreciate you with having continuity in my mind for next academic year.
