

6.2.1

**Some Core Committees**

The perspective plans of the College mainly focus on such points as infrastructure development, betterment of the quality of teaching-learning process, giving impetus to research activities and healthy practices in the institution. Construction of the new College building was one of the strong recommendations made by the visiting NAAC peer team and it was one of the core perspective plans of the institution. Though there was delay in materializing this plan (due to one or the other reasons), it was materialized and the functioning of the College was shifted i.e. 27<sup>th</sup> November, 2019. Some of the perspective plans have been completed and others are in the process of completion. Completion of ongoing construction of the College's new building was the core part of the plan. After entering in New College Building and with New Post-Graduation course as M.Com. in Management, some committees must act actively to tackle down the problems increase. Some core committees are as follows:
