

Patpanhale Arts, Commerce and Science College

At-Post: Patpanhale, Tal: Guhagar, Dist: Ratnagiri. (M. S.)

Performance of the Institution in One Area Distinctive to its Vision, Priority and Thrust

The basic vision, mission, objectives etc. of the institution, is to provide higher education. All the curricular, co-curricular and extra-curricular activities of the institution are centered-around this basic vision, mission etc. Since its inception in the year 1992, the institution has been relentlessly striving for providing higher education to the needy, socially downtrodden and economically backward people of this vicinity. The college has the distinction and credit of providing education to the first generation of graduate and postgraduate students in Guhagar taluka of Ratnagiri District. Even though the college is working with resources crunch and infrastructural problems, it has the satisfaction of fulfilling its basic vision, mission etc. to a great extent.

100% of the students studying in the college belong to rural areas. Moreover, the number of girls studying in the college outnumbers the boys. So far, thousands of students have graduated and post-graduated from our college. Such students have become sources of livelihood for a number of families and also have adored responsible positions in the society. The efforts of the college have lead thousands of families from age-old pre-modernity towards modernity. Such changes have led to a number of societal changes and also ideological upliftment and economic development in a number of families. Such provision of education has brought about overall economic and social changes in thousands of families living in the surrounding areas of the college. In future, the college has still a number of dreams for realisation of its basic vision, mission, objectives etc. Though the college has still a lot of things to achieve, it has the satisfaction of laying few steps in the direction of realisation of its basic objectives.
